VULCAN PAVING BREAKER TOOLS

are built with the same care that assures the lasting qualities of expensive machinery. The steel, the forging, and the special heat treatment **must** and **do** have an important part in the finished product.

Not one of these elements is sacrificed in any way for the sake of price. That is why

THE REPUTATION OF VULCAN TOOLS

for uniformity and the highest dependableness, enhanced by just such percentages as quoted above, makes them a wanted line with contractors who insist on keeping their tool expense at a minimum.
